The capacity is for 900 children. Overcrowded classrooms are not conducive to learning. Funding must be provided to create the necessary classroom space to accommodate the growing student population.</p> <p>Responsible Agency: Department of Education</p>	<p>The capacity calculation in the Blue Book is based on the Annual Facilities Survey which is completed by Principals and identifies the size and use for each room in a building. The new capacity being created through the Capital Plan is one of several tools to achieve class size reduction. Another important tool is the Facility Realignment Strategies. In addition, maximum classroom capacities were reduced in the capacity calculation. The analysis is conducted annually to incorporate the latest, sustained housing and demographic trends in the plan.</p>
